

Plant Biology and Physiology	S5	Fundamental Teaching Unit I	Plant physiology
			Plant biochemistry
		Fundamental Teaching Unit II	Stress physiology
			Eco-pedology
		Methodological Teaching Unit	Molecular biology
			Plant biotechnology
			Physiological analysis methods
		Discovery Teaching Unit	/
		Transversal Teaching Unit	English
	S6	Fundamental Teaching Unit I	Ontogenesis of higher plants
			Genetic improvement of plants
			Reproductive biology
		Fundamental Teaching Unit II	Conventional biosystematics
			Molecular biosystematics and phylogeny
		Methodological Teaching Unit	Biostatistic and computer science
		Discovery Teaching Unit	Ecosystems and food chains
		Transversal Teaching Unit	French
