Alignment of Academic Master's Degree Offers

Institution	College	Department
Mohamed Seddik Ben Yahia University of Jijel	College of Human and Social Sciences	Psychology, Educational Sciences, and Speech Therapy

Field : Human and Social Sciences

Branch : Social Sciences and Educational Sciences

Specialization : Educational Psychology

Academic Year : 2017/2018

The Master's program in Educational Psychology is a natural extension of undergraduate studies in disciplines such as Educational Psychology, Special Education, Guidance and Counseling, and School Psychology. Generally, the curriculum of the Master's program in Educational Psychology encompasses theoretical knowledge and field applications, including a range of psychological measures relevant to the field and their implementation in educational contexts. Additionally, it covers methodologies for psychological and educational research, as well as the design and application of various assessments and tests within educational environments .

Admission Requirements for the Master's in Educational Psychology

Admission is open to students holding a Bachelor's degree (Licence) in one of the following fields:

Educational Psychology

Special Education Counseling and Guidance

School Psychology

Priority Criteria:

Academic Progression: Priority is given to students who completed their undergraduate studies under standard conditions:

Regular attendance

. Completion of all required coursework and activities.

No repeated academic years.

Specialization Ranking: Applicants are prioritized in the order of the specializations listed above (e.g., Educational Psychology first, followed by Special Education, etc.).

External Candidates: 20% of seats are allocated to applicants from external universities (outside the host institution). These candidates are also prioritized according to the specialization order above
