ANNEX 2: OBJECTIVES OF THE DOCTORAL PROJECT

This doctoral program aims to address the shortage of permanent teaching staff at the University of Skikda by training future assistant professors and lecturers. It provides opportunities for English Master's students to pursue doctoral studies, especially since no such competitions have been held since 2013. It also empowers faculty by enhancing

their capabilities in supervising, guiding, and evaluating doctoral research. This initiative promotes research mastery and pedagogical innovation while encouraging intellectual exchange through academic events.

Strategic Link:

The shift toward English in Algerian higher education is a strategic effort to globalize academia. The integration of English enhances institutional competitiveness, international visibility, and aligns with national economic trends. The government also introduces English at the primary level, reflecting its commitment to developing an English-proficient generation ready to engage globally.

Annex 3: Effective Capacities

Human Resources:

Senior Academic Staff: 8 (1 Professor and 7 MCA)

- Literature: 5
- Linguistics: 2
- Translation (English): 1

All eight supervisors are permanent members of the department and belong to the magistral rank.

Material Resources:

1 Research Laboratory: E0984700 / Languages and Texts / University Badji Mokhtar of Annaba

Lab Director: Prof. Attoui Mohamed El Hadi
