Important:

The courses are part of the teaching hours of the research professors.

The teaching hours for knowledge support courses are set at two (02) hours per week.

These courses can be organized according to each specialty or grouped in the same stream.

The courses on information and communication technologies, research methodology and pedagogy courses can be common to several streams.

The doctoral student's notebook is mandatory to record the achievements and the continuous monitoring of the doctoral student, which is integrated into the PROGRES digital platform.
