Important:

The courses taught are part of the teaching-researchers' teaching hours.

The number of hours for knowledge support courses is set at two (02) hours per week.

These courses can be organized according to each specialty or grouped together in the same discipline.

The courses on information and communication technologies, research methodology, and pedagogy courses can be common to several disciplines.

The doctoral student's logbook is mandatory for recording achievements and continuous monitoring of the doctoral student, which is integrated into the PROGRES digital platform.
