

## **Master's Program in Waqf Management**

### **Program Overview**

- **Do you want to become a leading executive for Waqfs in all their forms?**

This distinguished program, represented by the Master in Waqf Management at the Emir Abdelkader University for Islamic Sciences, offers you a unique opportunity to acquire advanced skills combining the Islamic legal foundations governing Waqf and modern management techniques for its administration and development within state institutions or related charitable organizations.

- **Program Information Institution:**

- **Academic Institution** Emir Abdelkader University of Islamic Sciences
- **Faculty:** Faculty of Sharia and Economics
- **Department:** Economics and Management
- **Field of Study:** Economic Sciences, Management, and Commercial Sciences
- **Specialization:** Waqf Management.
- **Duration:** Two years, divided into four semesters

- **Program Objectives**

- ✓ To prepare specialized executives in the management of Waqfs.
- ✓ To develop the academic skills of students to enable them to pursue higher education.
- ✓ To provide students with technical knowledge in the field of Waqf management in particular and management in general, in addition to mastering the acquisition of further knowledge regarding statistical analysis software.
- ✓ To encourage research in the field of Waqf development in service of economic and social development.

- **Why Choose This Program?**

- ✓ **High Academic Competence:** A comprehensive training that combines the Islamic legal and technical aspects in the management of Waqfs, as well as their investment methods, serving the national economy.
- ✓ **Qualification for the Labor Market:** Preparing specialists capable of working in directorates of religious affairs and public administrations.
- ✓ **Opportunity to Pursue Scientific Research:** Qualifying outstanding students to pursue postgraduate studies and a doctorate in Waqf management.
- ✓ **Definition and Dissemination of Scientific Knowledge** related to Waqfs and an attempt to move Waqf away from traditional management methods so that it becomes an added value to the national economy and an attempt to establish awareness of the role of the third sector.

- **Are You Ready for a Promising Career?**

Join the elite of specialists in Islamic economics and Waqf management according to modern scientific methods, and be part of the new generation that leads economic transformation in accordance with the principles of Islamic Sharia.
