

Bachelor's in Waqf Management

✓ **Program Overview**

The Bachelor's degree program in Waqf Management offers specialized training that combines Sharia sciences and management sciences. It opens broad prospects for developing alternative mechanisms to achieve sustainable development by graduating specialists in the management and administration of modern Waqf institutions.

• **Program Information Institution:**

- **Academic Institution:** Emir Abdelkader University of Islamic Sciences
- **Faculty:** Faculty of Sharia and Economics
- **Department:** Economics and Management
- **Field of Study:** Economic Sciences, Management, and Commercial Sciences
- **Specialization:** Bachelor's in Waqf Management.
- **Duration of Study:** Three academic years (divided into six semesters).

• **Objectives of the Program**

This program is designed to achieve the following core objectives:

- ✓ Preparing specialized cadres in the management and administration of institutions.
- ✓ Developing students' academic skills to enable them to pursue postgraduate studies.
- ✓ Providing students with in-depth knowledge of Waqf institutions, the management of Zakat funds and institutions, human resource management, and management control, in addition to further knowledge in data analysis.
- ✓ Deepening students' Sharia education in the jurisprudence of financial transactions and the jurisprudence of Waqf.

• **Pathways to Other Specializations?**

The training in Waqf Management allows beneficiary students to orient themselves towards other specializations within the Department of Management Sciences at the Bachelor's level. External students with comparable training can also be directed to this specialization, for example, those coming from higher education institutions/private schools under supervision with a similar specialization.

Furthermore, it qualifies students to pursue Master's level studies in the Waqf Management Master's program or in various specializations within the Department of Management Sciences.

• **Teaching Methods:**

- ✓ Theoretical lectures and applied case studies in each taught subject.
- ✓ Practical training in financial data analysis using specialized software.

Shari'a and Economics Faculty

- ✓ Research projects on Waqfs and their applications.
- ✓ Assessment includes directed work (40%) + final examinations (60%).

✓ Curriculum Highlights:

The Bachelor's degree program in Waqf Management consists of two years of common core studies: the first year as a common core in Economic Sciences, Management Sciences, and Commercial Sciences, and the second year in the Department of Management Sciences. The specialization year includes two semesters:
