

# Aircraft propulsion Bachelor

- Controlled systems
- Electrotechnics
- Machine construction1
- TP Electrotechnics
- Motor technology
- CAD tool: Design
- Computer-assisted
- Engine workshop
- Vibratory mechanics
- Flight mechanics
- Heat transfer
- Materials resistance
- Organization and troubleshooting
- Human factors
- Machine construction 2
- TP Circuit cell
- Simulation and calculation codes CND/Metallurgy/Workshop
- Engine workshop 2
- Metallurgy
- CND
- Composite materials
- Airframe and aircraft circuits
